

A2 15. (Amended) An apparatus according to claim 14, wherein said image information input device comprises an arithmetic unit.

17. (Amended) An apparatus according to claim 16, further comprising an aperture stop between at least one of said curved mirrors and said image display means.

A3 18. (Amended) An apparatus according to claim 16, further comprising an aperture stop between second and third mirrors of the curved mirrors from said image display means side.

19. (Amended) A projection optical system for obliquely projecting light from image display means, comprising a plurality of aspherical curved mirrors, wherein an image is projected with a distortion not more than 1.2%.

REMARKS

I. Status of the Claims

Claims 1-19 are currently pending. Claims 6, 7 and 9 are withdrawn from consideration.

By this Amendment, claims 1, 15 and 17-19 have been amended. No new matter has been introduced by this Amendment. Entry and consideration of this Amendment are respectfully requested. Upon entry of this Amendment, claims 1-19 would be pending.
